

GUNEYE

WE BELIEVE IT WILL SAVE LIVES

ENGINEERED FOR LAW ENFORCEMENT

GUNEYE, LLC has newly developed the innovative GunEye. **GunEye-HD360 IR LE Smart HD Weapon Mounted Gun Camera** optic device with a unique **Secondary Sighting System Technology/Night Vision** that links a gun directly to a mobile device/tablet using our **GunEye Target App**. At Guneye, we engineer the highest performing, durable and innovative weapon mounted gun camera. Whether your LEO, S.W.A.T. home defense or a sportsman, GunEye has built the ultimate accessory. Night Vision is our bonus to you!

PRODUCT FEATURES AND ADVANTAGES

Smart HD Weapon Mounted Gun Camera with Video App

This optic device attaches to the rail of a handgun to capture videos and connect to a user's mobile device/tablet to display real-time imagery. The integrated features include a Weapon Mounted HD camera, infrared light, and recording capabilities for Android and IOS mobile platforms. Audio/Video instant recording is live streaming and available for any post viewing event, downloadable via USB-C.

Secondary Sighting System

Provides advantage enabling users to see around corners and shoot a target with accuracy from behind "cover" using the visual image projected on a mobile device. Unobstructed view from the muzzle point of view when the weapon is drawn.

Auto Night Vision System

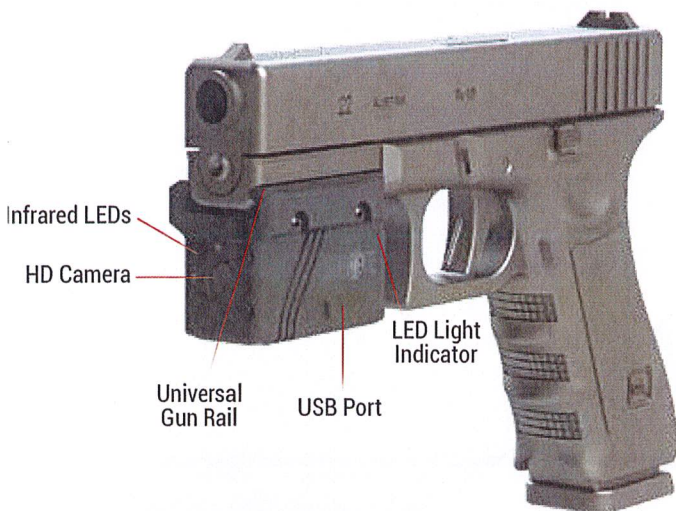

The infrared LEDs provide advanced capabilities with light detection and a range up to 40ft.

Compact Size

The Smart HD Weapon Mounted Gun Camera is smaller than other products on the market today and includes many additional unique technology features. The GunEye Unit is compact, bottom rail mounted, to fit most firearms with our special design clamp system.

App Connectivity to Smart Devices

Android and iOS app: connecting camera to mobile device/tablet via Bluetooth, Wi-Fi, Wi-Fi Direct.
